

The Millbrae Community Youth Center Project

Turning Treasured Memories into New Opportunities

Project Description

This project is a joint effort involving the Millbrae Lions Club, The Millbrae School District and the City of Millbrae. We are raising funds to renovate the Millbrae Lions Scout House and convert it to a community center to meet the needs of our youth. We are talking with the Mid Peninsula Boys and Girls Clubs about a possible collaboration and help with fundraising.

The rebirth of the facility will be a tribute to the collaborative efforts in our community to recreate a Millbrae tradition. The building will provide after school programs, educational and recreational opportunities for all Millbrae youth, evening and summer community programs, and much need meeting space for classes, clubs, and special events.

The Millbrae Community Foundation, a 501 c (3) organization, has established a Designated Fund to receive contributions, and more than \$7,500 has been raised to date.

Because we are a grass roots organization, we need strong community and business support. Financial contributions as well as event sponsorship will be important to us; we also need in-kind support, the time and talent of volunteers, and professional services and advice (construction, marketing, printing, etc.)
